

National Socialist Values

We believe that:

Quality is better than *equality*, and that;

Bravery is better than *cowardice*;

Strength is better than *weakness*;

Intelligence is better than *stupidity*;

Health is better than *sickness*;

Integrity is better than *corruption*;

Confidence is better than *indecision*;

Purity is better than *pollution*;

Hope is better than *despair*;

Fertility is better than *sterility*;

Energy is better than *laziness*;

Honor is better than *shame*;

Defiance is better than *submission*;

Self-sacrifice is better than *greed*;

Loyalty is better than *treachery*;

Commitment is better than *apathy*;

Faith is better than *cynicism*;

Truth is better than *falsehood*;

Beauty is better than *ugliness*;

Pride is better than *guilt*;

Work is better than *theft*;

And we believe that the **future of our Race** will be as glorious as its past.

Source: *White Power: The Revolutionary Voice of National Socialism*, issue 101, 1982. *White Power* was the mass distribution tabloid of the *National Socialist White People's Party*.

If you read down the **left side** of the list, you see the values of the New Order that we are fighting to establish for Aryankind.

If, however, you read down the **right side** of the list, you will see the dominant values of the Old Order which we seek to overthrow and destroy.

We have been told many times over that it is not possible to establish National Socialism in the US (and other White nations) because "Americans just won't go for it." But if you read this list to any ordinary (that is, non-NS) White person, you will find that they are in full agreement, not just with one or two or ten of the listed values, but rather with **the whole list!**

What White people "won't go for" is not true National Socialism, but rather the distortion and misrepresentation of it that we have been force-fed, by those powers which ultimately seek **Aryan extinction!**
